## ABOUT THE PROGRAM

**WATCH** . . . as bottles are magically recycled, then multiply before your eyes!

**THRILL** . . . as newspapers disappear and re-materialize in totally reusable form!!

**GASP** . . . as naysayers in the "Land of Recycling" become recycled themselves!!!

THE MAGIC OF RECYCLING is the perfect presentation to promote reduction, reuse, and recycling! This creative combination of magic, facts, humor and persuasion are woven together to educate people about the need to protect our environment, conserve our natural resources and motivate them to do so.
